## INTELLIGENT AROUND VIEW MONITOR

# It's a tight squeeze, but you'll get through without a scratch

The path is so tight, you hold your breath going through. But you know you'll make it, with Frontier's advanced tech on your side. Wheel-scraping boulders? Severe drop-offs? Not to worry. Four cameras give you a 360-degree overhead view of obstacles. Think of it as your own high-tech spotter on board.

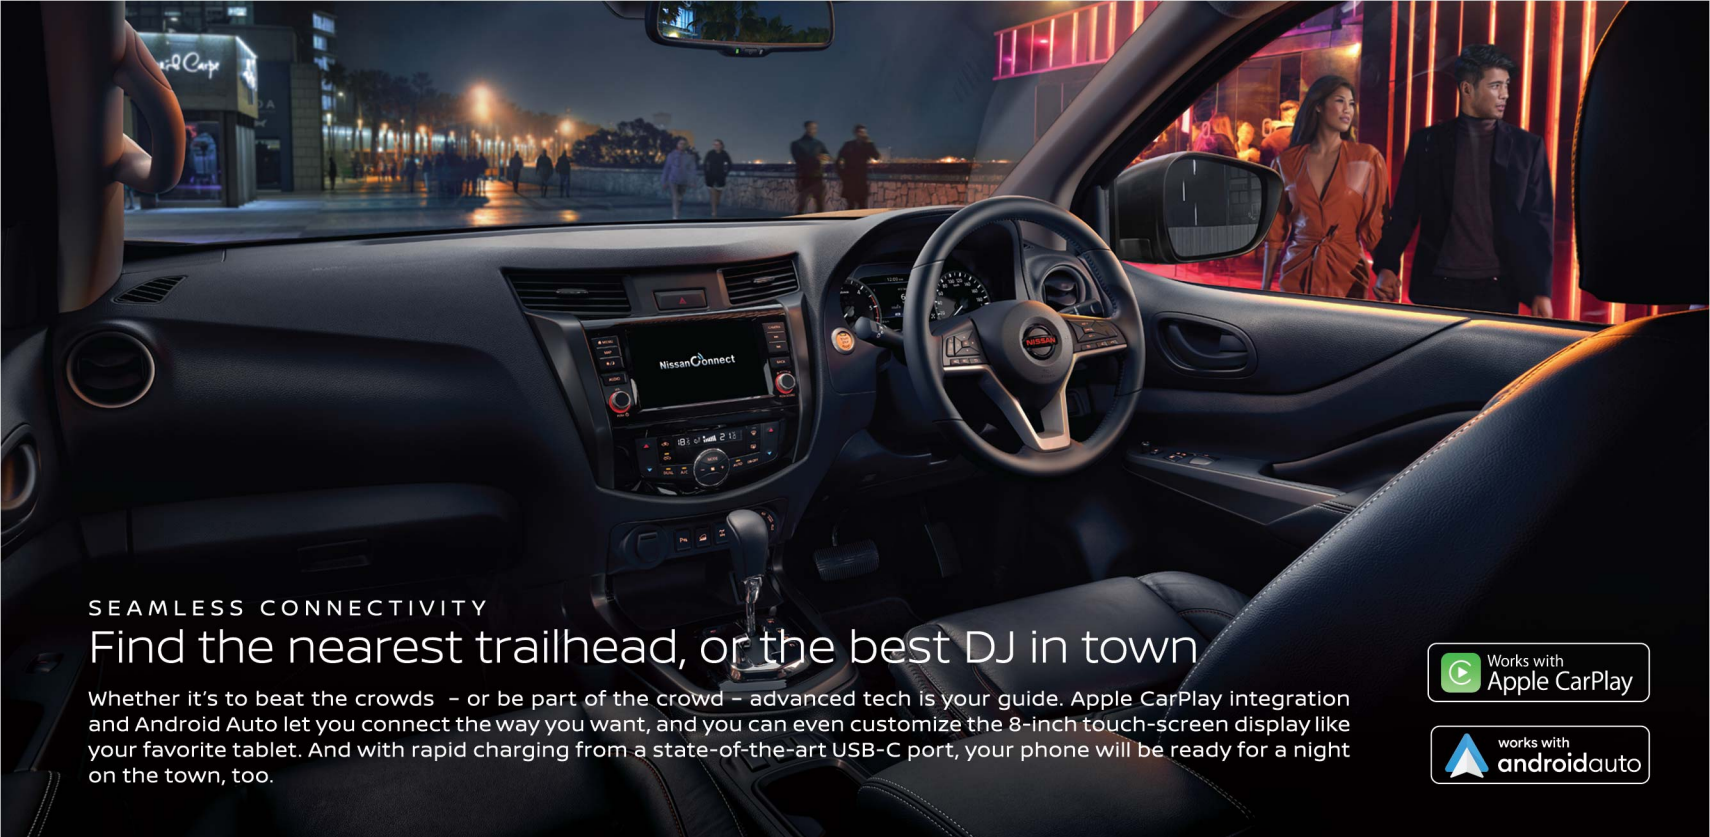

Off-Road-On rough terrain, the Intelligent Around View Monitor becomes your personal spotter. With a designated off-road mode, at slow speeds in 4 LO it gives you a clear view of the surrounding terrain, so you can see exactly where to place your front wheels.

**Trailer Hook-up** Having a 360-degree view comes in especially handy when connecting to a trailer. Active guide lines help you place your Frontier perfectly, while it's also great when negotiating a tight parking spot.

## SEAMLESS CONNECTIVITY

# Find the nearest trailhead, or the best DJ in town

Whether it's to beat the crowds – or be part of the crowd – advanced tech is your guide. Apple CarPlay integration and Android Auto let you connect the way you want, and you can even customize the 8-inch touch-screen display like your favorite tablet. And with rapid charging from a state-of-the-art USB-C port, your phone will be ready for a night on the town, too.

## ADVANCED DRIVE-ASSIST DISPLAY

# When you're well informed, you're in command

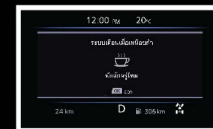

It's easy to be in control of the situation with Frontier's Advanced Drive-Assist Display. Helping keep your eyes on the road with less looking away means you're focused and relaxed whether you're dodging boulders or negotiating city traffic. Frontier's 7-inch Advanced Drive-Assist Display puts key information right where you want it. With a quick look down, you can get info on everything from music information to navigation directions and key driver's aid alerts. The system can even monitor your driving and suggest when you may need to take a break or stop for coffee.

FULLY BOXED, FULLY CAPABLE

# NEVER BEND IN THE FACE OF ADVENTURE

Get axle-deep in fun. Frontier's toughness means confidence you can feel. So go ahead and challenge yourself. Cruise the dunes, crawl over boulders – even ford a stream. With a combination of strength and skill that comes from decades of building authentic off-road trucks, Frontier will take you wherever you want to play.

**Fully Boxed Frame** Unlike some three-sided frames, a fully boxed ladder frame won't twist over uneven terrain. This means more strength, and ultimately, more capability.

**5-Link Rear Suspension** Frontier's 5-link rear suspension helps give a smoother ride, even in severe conditions. It also provides a more comfortable ride for those in back.

**Ground Clearance** With generous ground clearance and superior approach and departure angles, Frontier is adept at fording ravines, and climbing seriously rocky terrain.

**Hill Descent Control** Helps make going down steep grades more manageable by automatically adjusting your speed and brake pressure to help keep you going at a controlled speed.

**Hill Start Assist** When you're on a steep incline, hill start assist helps stop you from rolling backwards.

Brake Limited

Electronic Locking  
Rear Differential

TWO POWERFUL ENGINES

## Embrace the awesome uphill battles

The challenge ahead is measured in vertical feet instead of miles. And that's the beauty of it. Frontier has the power and torque you need to go where you want, when you want. Aim high, and start climbing.

## VEHICLE SPECIFICATIONS

Nissan Intelligent Mobility moves you one step ahead. In cars that feel like an extension of you, helping you see more and sense more, reacting with you, and sometimes even for you. Nissan Intelligent Mobility is about a better future-moving us to a world that's safer, more sustainable and exciting

FEEL MORE  
CONFIDENT

**INTELLIGENT DRIVING** Imagine a car that will pick you up, navigate heavy traffic, and find parking all on its own. And at the push of a button, it gives you back control of the wheel. It will even be able to communicate with other cars and pedesrians. Nissan is testing advanced autonomous driving on public roads today, which means this revolutionary driving expreience is within reach.

FEEL MORE  
EXCITED

**INTELLIGENT POWER** with 100% instant torque and zero tailpipe emissions, electric vehicle transportation doesn't have to compromise the thrill of driving Nissan's leadership position in EVs means we're committed to expanding our range of zero tailpipe emission vehicles, bringing the unique pleasures of cleaner, quiet power to more and more people worldwide.

FEEL MORE  
CONNECTED

**INTELLIGENT INTEGRATION** a connected ecosystem of drivers, cars, and communities is key to a cleaner and safer world. Nissan is playing a central role in defining what the roads of the future will look like, from autonomus cars to traffic management systems to mobility services. Nissan is committed to creating a more connected world by linking vehicles to social infrastructure.
